

ON WHEELS

A TURNING WORLD

Everything on wheels! roaming on wheels, talking of wheels, wheeling around each other.

A little troupe, suddenly shows up from the unknown. Misteriously sliding and opening up a path, it presents the delicious story of an ever travelling group of characters exploring encounters among them and the public. Circling around, they address to a present moment in transformation towards a circular world. Spinning and dancing, a poetical perception is drawn upon the limit of some being the infinite of others.

Does the world fit on a wheel?

This performance may also include musicians and or other interpreters by developping a one week ensemble workshop previously to the presentation.

More than 20.000 have already seen this show!
